Disclosure on Risk Based Capital Requirement under Pillar-3 of Basel III As on 31 December, 2020

Disclosure Policy

The following detailed qualitative and quantitative disclosures are provided in accordance with Bangladesh Bank rules and regulations on capital adequacy under Basel III issued through BRPD Circular no. 18 (21 December 2014). The purpose of these requirements is to complement the capital adequacy requirements and the Pillar III – supervisory review process. These disclosures are intended for market participants to assess key information about the Bank's exposure to various risks and to provide a consistent and understandable disclosure framework as per regulatory requirement. The Bank has spelt out its position as per disclosure requirements set out by the Bangladesh Bank.

The major highlights of the Bangladesh Bank regulations are:

- Maintenanceof Capital Adequacy Ratio (CAR) at a minimum of 10% of Risk Weighted Assets (RWA);
- Adoption of the standardized approach for credit risk for implementing Basel III, using national discretion for:
- Following the credit rating agencies as External Credit Assessment Institutions (ECAI) for claims on sovereigns and banks;
- Adopting simple/comprehensive approach for Credit Risk Mitigation (CRM);
- Making unrated corporate exposures risk weighted by assigning a risk weighting of 125%.
- Adoption of the standardized approach for market risk and basic indicator approach for operational risk.
- Furnishing Capital adequacy returns to Bangladesh Bank on a quarterly basis.

a) <u>Scope of Application</u>

Qualitative Disclosure	<u>(a)</u>	The Risk Based Capital Adequacy (RBCA) framework which is called Basel-III guideline issued by Bangladesh Bank in December-2014was duly applied to Padma Bank Limited.	
	(b) Padma Bank Limitedprepared its RBCA report on "S as well as "Consolidated Basis" where one (01) s belongs to Padma Bank Ltd.		
	<u>(c)</u>		
Quantitative Disclosure	<u>(d)</u>	No Capital deficiency in solo and consolidated assessment was observed.	

b) <u>Capital Structure</u>

Qualitative Disclosure	<u>a)</u>	Padma Bank Ltd's capital structure consists of Tier I an Tier II capital which is aligned with regulatory capit structure. Tier I capital is further categorized as Commo Equity Tier 1 (CET1) and Additional Tier 1 capital. The computation of the amount of Common Equity Tier Additional Tier I and Tier II capital shall be subject to the following conditions:	
		 The Bank has to maintain at least 4.50% of total Risk Weighted Assets (RWA) as Common Equity Tier I capital. Tier I capital will be at least 5.50% of the total 	
		 RWA. Minimum Capital to Risk-weighted Asset Ratio (CRAR) will be 10% of the total RWA. Additional Tier I capital can be maximum up to 1.5% of the total RWA or 33.33% of CET 1, whichever is higher. Tier II capital can be maximum up to 4% of the total RWA or 88.89% of CET1, whichever is higher. In addition to minimum CRAR, Capital Conservation Buffer (CCB) @ 0.625% of the total RWA will be maintained in the form of CET1 in a phased manner from 2016 to 2019. 	
		Tier I capital of the Bank includes fully Paid-Up Capital, Statutory Reserve, Minority Interest in Subsidiary and retained earnings. Tier 1 capital is also called 'Core Capital' of the Bank. According to BRPD letter ref no.BRPD(BFIS)661/14B(P)/2015-18014 dated 24 December 2015, 5% of deferred tax recognized on specific provision shall be allowable as CET 1 capital whilst all other deferred tax assets created on other items shall be deducted from the retained earnings when calculating the capital adequacy ratio.	
		Tier II capital consists of General Provision and revaluation reserve for Held to Maturity (HTM) and Held for Trading (HFT) securities. General provision for inclusion in Tier II capital is limited to a maximum 1.25% of Credit RWA calculated under the standardized approach. Revaluation reserve for securities shown as Tier II capital as on 31 December 2014 will be nullified in a phased manner at the rate of 20% starting from 2015 and will be fully adjusted by 2020.

(c) Capital Adequacy

		-		(BDT in Crore)	
Qualitative Disclosure	a)	For accessing Capital Adequacy the Bank has adopted Standardized Approach for Credit Risk measurement, Standardized (Rule Based) Approach for Market Risk measurement and Basic Indicator Approach for Operational Risk measurement. Adequate capital means enough capital to compensate with Bank's risks profile. For assessing overall risk profile and a strategy for maintaining adequate capital, Bank has developed an Internal Capital Adequacy Assessment Process (ICAAP) for practicing better risk management techniques. Bank has strengthened effectiveness its risk management process and internal control system in assessing and planning of economic capital against all risks. The strategic planning process critically analyses of bank's current and future capital requirements. The strategic plan includes the bank's capital needs, anticipated capital expenditures, desirable capital level, and external capital sources.

Note: As per Bangladesh Bank, Bank supposed to keep provision amounting to BDT 1,818.48 crore against total loans and advances, but upon the request of the Bank, Bangladesh Bank vide letter no: DBI-1/134/2021/1027, dated-30/04/2021 has permitted bank to keep BDT 173.42 crore of total required provision in the year 2019 to maintain the minimum capital to Risk Weighted Assets (CRAR) as per BASEL-III guidelines. Therefore, an amount of provision shortfall stood at BDT 1,645.06crore at the year end and Bangladesh Bank has also provided exemption for the provision shortfall in their letter and instructed to be maintained from 2021 to 2025.

As such Bank determined its capital with the exemption of provision shortfall.

<u>(d)Credit Risk</u>

Qualitative Disclosure	(a)	Credit risk is the risk of financial loss resulting from failure
		by a client or counterparty to meet its contractual
		obligations to the Bank. Credit risk arises from the bank's
		dealings with or lending to corporate, individuals and
		other banks or financial institutions. Padma Bank Ltd. is
		managing Credit Risk through a robust process that
		enables the bank to proactively manage loan portfolios in
		order to minimize losses and earn an acceptable level of
		return for shareholders.
		Past Due/Impaired Loans
		Bank classifies loans and advances (loans and bill discount
		in the nature of an advance) into performing and non-
		performing loans (NPL) in accordance with the Bangladesh
		Bank guidelines in this respect. An NPA is defined as a loan
		or an advance where interest and/ or installment of
		principal remain overdue for more than 90 days in respect
		of a Continuous credit, Demand loan or Term Loan.
		Classified loan is categorized under following 03 (three)
		categories:
		categories.
		1. Sub-standard
		2. Doubtful
		3. Bad & Loss
		Any continuous loan will be classified as:
		• 'Sub-standard' if it is past due/over-due for 3
		months or beyond but less than 6 months.
		• 'Doubtful' if it is past due/over- due for 6 months
		or beyond but less than 9 months.
		• 'Bad/Loss' if it is past due/over- due for 9 months
		or beyond.
		Any Demand Loan will be classified as:
		• Sub-standard' if it remains past due/overdue for 3
		months or beyond but not over 6 months from the
		date of claim by the bank or from the date of creation of forced loan.
		• Doubtful' ifit remains past due/overdue for 6
		months or beyond but not over 9 months from the
		date of claim by the bank or from the date of
		creation of forced loan.

• • • •	more than the amount of installment (s) due within 9 months, the entire loan will be classified as "Doubtful". If the amount of past due installment is equal to or more than the amount of installment (s) due within
	12 months, the entire loan will be classified as ''Bad /Loss".
<u>Term</u>	<u> Loan above Tk.10.00 lac</u>
	more than the amount of installment (s) due within 3 months, the entire loan will be classified as "Sub-standard". If the amount of past due installment is equal to or more than the amount of installment (s) due
	within 6 months, the entire loan will be classified as "Doubtful".
•	If the amount of past due installment is equal to or more than the amount of installment (s) due within 9 months, the entire loan will be classified as "Bad /Loss"
0	ultural Credit & Micro Credit loan will be ified as:
	If not repaid within the fixed expiry date for repayment will be considered past due / overdue after 6 months of the expiry date. If irregular status continues, the credit will be classified as 'Substandard ' after a period of 12 months. If irregular status continues, the credit will be classified as 'Doubtful' after a period of 36 months.

• If irregular status continues, the credit will be
classified as 'Bad or Loss ' after a period of 60 months.
Description of approaches followed for specific and general allowances:
Padma Bank Limited follows the General and Specific Provision requirement as prescribed by Bangladesh Bank time to time.
General provision on all unclassified loans of Small and Medium Enterprise 0.25% General provision against all unclassified loans (other than loans under consumer Financing, Loans to Brokerage House, Merchant Banks, Stock Dealers etc. Special Mention Account as well as SME Financing) 1%
General provision on the unclassified amount for Consumer Financing (other than Housing Finance and Loans for professionals to set up business) 5% General provision on the unclassified amount for Housing Finance and Loans for professionals to set up business under consumer financing scheme 2%
General provision on the unclassified amount for Loans to Brokerage House, Merchant Banks, Stock dealers, etc 2% General provision on the outstanding amount of loans kept in the Special Mention Account 5% General provision on the off-balance sheet exposures 1%
Specific Provision for classified Continuous, Demand and Fixed Term Loans: Substandard 20% Doubtful 50%
Bad/Loss 100% Specific Provision for Short-term Agricultural and Micro- Credits: All Credits except Bad/Loss 5% Bad/Loss 100%
<u>Methods used to measure credit risk</u> In compliance with Risk Based Capital Adequacy, Padma Bank, as per BASEL-II Guideline, uses ratings assigned by External Credit Assessment Agencies (ECAIs) approved by Bangladesh Bank. The rating is used for both fund based and non-fund based exposure for corporate borrowers. Padma Bank also uses the Credit Risk Grading System prepared by Bangladesh Bank before taking any exposure on Corporate and Medium clients.

(h) Operational Risk

<u>Oualitative Disclosure</u>	(ഹ	Views of BOD on system to reduce Operational Risk:			
Qualitative Disclosure	<u>(a)</u>	Operational risk is associated with human error, system failures			
		and inadequate procedures and controls. It is the risk of loss arising			
		from the potential that inadequate information system;			
		technology failures, breaches in internal controls, fraud, unforeseen catastrophes, or other operational problems may			
		result in unexpected losses or reputation problems. Operational			
		risk exists in all products and business activities.			
		In addressing Operational Risk, Bank has been strengthened its			
		Internal Control System, and ensure sound Corporate Governance			
		in all sphere of Management and Operation level as well.			
		The Bank should maintain a robust CBS (Core Banking Software)			
		and enriches its IT infrastructure in terms of demand of time.			
		Besides, in order to capacity building of its Human Resources			
		divisionmay be taken a number of steps like training, workshop etc.			
		Performance gap of executives and staffs:			
		Padma Bank has a policy to provide competitive package and			
		bestworking environment to attract and retain the most			
		talented people available in the industry. Padma Bank's strong			
		brand image plays an important role in employee motivation. As a			
		result there is no significant performance gap.			
		Potential external events:			
		No potential external events are expected to expose the Bank to			
		Significant operational risk.			
		Policies and Processes for mitigating operational risk:			
		To mitigate operational risk, Bank use basic indicator approach to			
		calculate capital charge against operational risk. The policy for			
		operational risks including internal control & compliance risk is			
		approved by Board taking into account relevant guidelines of			
		Bangladesh Bank. The Bank developed a Risk Management			
		Division and supervisory review Committee for review and			
		managing operation risk as well as evaluating of the adequacy of			
		the capital. For mitigating operational risk Internal Control and			
		compliance division undertakes periodical and special audit of the			
		branches and departments at the Head Office for review of the			
		operation and compliance of statutory requirements.			
		Approach for calculating capital charge for operational risk:			
		The Bank followed Basic Indicator Approach (BIA) for measuring Capital charges for operational risk. Under the Basic Indicator			
		1 0 1			
		Approach (BIA), the capital charge for operational risk is a fixed percentage (denoted by alpha) of average positive annual gross			
		Income of the Bank over the past three years.			
		meome of the bank over the past three years.			
Quantitative Disclosure		The Capital Requirement for operational Risk:			
		In Solo-59.62cr and in Consolidated 59.62cr			

(i) Liquidity Risk

Qualitative Disclosure	(a)	 Liquidity Risk is the risk that the bank does not have sufficient financial resources to meet its obligations as they fall due or will have to do so at excessive cost. The risk arises from mismatch in the timing of cash flows. The objective of liquidity framework is to allow the Bank to withstand very severe stresses. It is designed to be adaptable to change the business modes, markets and regulators. The liquidity risk management frameworks require: Liquidity to managed by Bank on stand-alone basis with no reliance on the Bangladesh Bank To comply with all regulatory limits; To maintain positive stressed cash flow; Monitoring the contingent funding commitments; Monitoring the structural term mismatch between maturing assets and liabilities; Maintenance of robust and practical liquidity contingency plan; Maintain diverse sources of funding and adequate back up lines.
		Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) based on BASEL III. The Bank has Asset Liability Management (ALM) desk to manage this risk with active monitoring and management. The Bank has adopted Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) for liquidity risk Management. LCR ensures that banks maintain enough high quality unencumbered liquid assets to meet its liquidity needs for 30 calendar time-line whereas NSFR ensures availability of stable funding is greater than required funding over 1 year period. Bank has Asset Liability Management Committee (ALCO) to monitor the liquidity risk on a monthly basis. Based on the detail recommendation from ALM desk, ALCO take appropriate action to manage the liquidity risk. To have more conservative approach towards liquidity risk measurement, the Bank has set internal LCR and NSFR limits which are more stringent and set higher than the regulatory limit of 100%. These ratios are regularly monitored at ALCO. Also Bank has internal risk control framework which outlines clear and consistent policies and principles for liquidity risk management.

		Available amount of stable funding	5454.56
		Required amount of stable funding	3862.54

(j) Leverage Ratio

(J) Leverage Ratio		
Qualitative Disclosure	(a)	 Leverage ratio is the ratio of tier 1 capital to total on and off-balance sheet exposures. The leverage ratio was introduced into the Basel III framework as a non-risk based backstop limit, to supplement risk-based capital requirements. In order to avoid building-up excessive on and off-balance sheet leverage in the banking system, a simple, transparent, non-risk based leverage ratio has been introduced by the Bangladesh Bank. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements. The leverage ratio is intended to achieve the following objectives: Constrain the build-up of leverage in the banking sector which can damage the broader financial system and the economy; and Reinforce the risk based requirements with an easy to understand and a non-risk based measure. The Bank has calculated the regulatory leverage ratio as per the guideline of Basel III. The numerator, capital measure is calculated using the new definition of Tier I capital applicable from 01 January 2015. The denominator, exposure measure, is calculated on the basis of the Basel III leverage ratio framework as adopted by the Bangladesh Bank. The exposure measure generally follows the accounting value, adjusted as follows: On-balance sheet, non-derivative exposures are included in the exposure measure is converted into credit exposure equivalents through the use of credit conversion factors (CCFs). Depending on the risk category of the exposure a CCF of 20%, 50% or 100% is applied. Item deducted from Tier I capital such as deferred tax assets is excluded.

Quantitative Disclosure	(b)	Leverage ratio (%)	Solo	Consolidated
		Leverage Ratio	3.75%	3.75%
		On balance sheet exposure	7124.72	7124.72
		Off balance sheet exposure	58.04	58.04
		Total Exposure	7117.78	7117.78
